

Washington- Euclid-Brown intersections

Brown Street

Euclid Avenue

West Washington Street

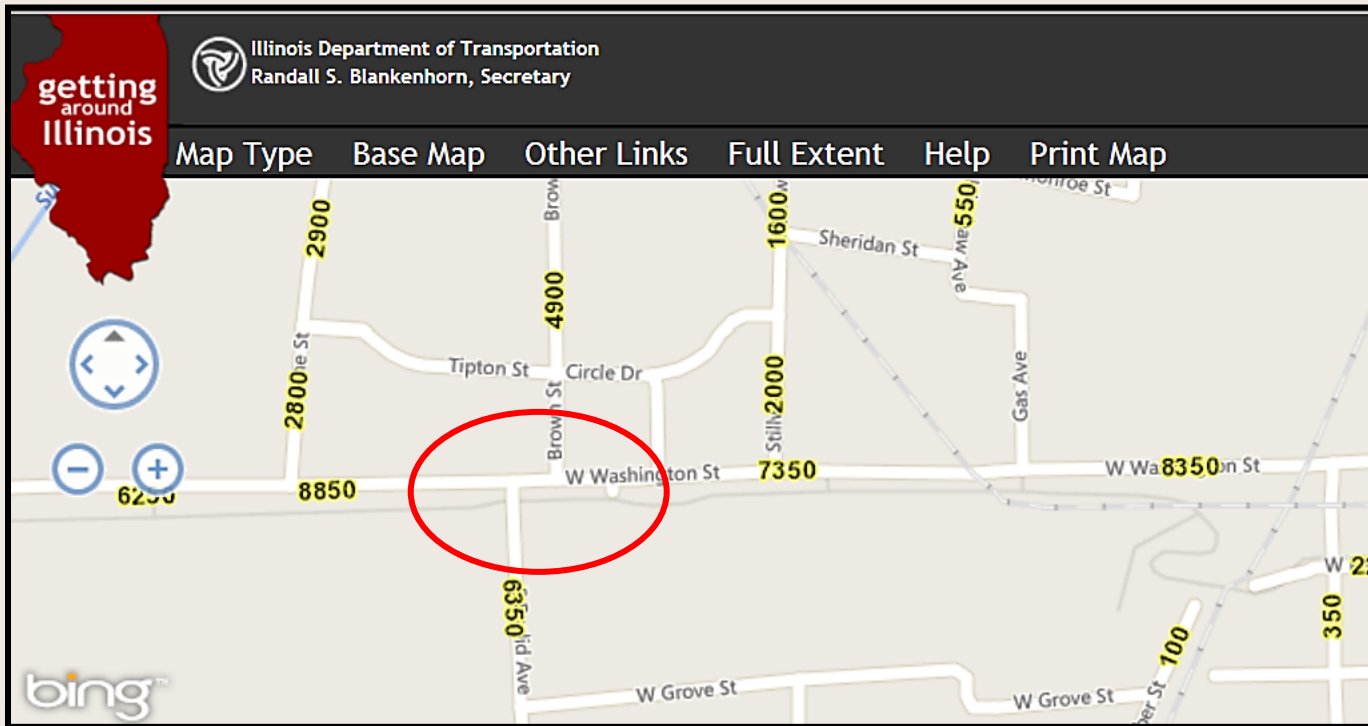

**Proposed
Feasibility Study**

July 11, 2016

Jim Karch, PE, CFM

Director of Public Works

Numbers

Average daily traffic count

Washington 7,350-8,850

Euclid 6,350

Brown 4,900

5-year crash history

31 Collisions

14 Injuries

Consultant:: Lochmueller Group

Funding: Capital Improvement Project - \$34,570

Issues

- ❑ North-south traffic flow becomes stalled during busy periods on Washington Street.
- ❑ Turning movements from Washington are difficult because of stalled traffic.
- ❑ The double intersection poses safety issues.

Among options to study: S-Curve and roundabout
